PLANTING DIRECTIONS

IMPORTANT—Open your package of roots immediately when they arrive. Plant as soon as possible but if you have to wait a few days, either keep moist in open box in cool cellar, or better yet, bury in garden.

Plant Peonies in good, well drained soil, in full sun if possible, and away from trees, buildings, etc. Do not plant where a peony has been before, unless all old soil is taken out and replaced with fresh. Plant 3 to 4 feet apart; set so that the eyes point upward and are 2 to 3 inches below the top of ground (very important). Give each root 2 quarts of water when planted, and then make a 6 inch mound of dirt above ground level to prevent heaving, scrape mound away late next spring.

In northern states, a mulch the first winter is advisable.

Standard List, Selected Kinds

Here at very low prices are offered the best of the older varieties proven by long trial, and a few of the very newest. People living as far south as St. Louis should choose mostly early doubles and the singles and Japs. Varieties I consider most desirable are marked with two stars **, those above the average with one star *.

Anomola (Smouthii). The earliest in this list. A purplish red single. The 'cut-leaved' Peony. Makes a plant the size of the regular kinds with leaves gracefully cut. By taking off the seed pods after blooming, one has a foliage effect for the rest of the season as fine as a large fern.....	\$ 1.00

FROM IOWA—"Thank you for the nice lot of roots you sent so promptly. Is was a joy to be handling them."

FROM KENTUCKY TO A DEALER IN OHIO—"I am particularly interested in your reference to Mr. Auten's Peonies and am pleased at your statement that you are 'becoming quite enthused about them'. This has been my attitude toward Mr. Auten's productions for several years past, and if everybody could know his stuff as I do, he would have a hard time keeping any of it for himself."

FROM OHIO—"Kickapoo bloomed for me this year and it rivals Kewanee." (Kewanee is early, Kickapoo late.)

Mary Auten and Naomi were among the outstanding doubles at the 1939 National Peony show at Boston.

NOVELTY COLORS

These supply much needed variation in tone. They liven up the garden picture, and give surprisingly brilliant and different effects indoors. They naturally carry some purple and may fade some at the end, but are still very much worth-while. We have many other Novelty varieties under trial. Write us.

Do not plant these novelty colors next to the regular clear reds, as they will clash. But away from them, the novelties are charming.
